

Blue Platform: Bioeconomy for blue growth in the Baltic Sea region

Blue Platform

The Blue Platform promotes results from eleven blue bioeconomy projects from Interreg, BONUS and Horizon2020 for authorities, business development organisations and companies as well as national and regional EU funding programmes dealing with blue growth. To improve the framework conditions for blue bioeconomy in the Baltic Sea region, the Blue Platform compiles a manual with joint standards for blue bioeconomy interventions, a Blue Platform Roadmap 2020, and policy papers on the alignment of funding and legislation.
